

**Vote For
Carlos Claudio
Parent Representative
Drummond Local
School Council**

**Father of Isabella Claudio Room 107
Husband of Marina Claudio**

Education is and will continue to be the foundation upon which we build our future. Schools are an integral part of that process and through our Local School Councils, parents, educators, and the community now have greater participation in the governance of our schools. I am strongly committed to contributing in a meaningful way to that governance and pledge to continue creating ideal environments in which our children can learn. For those reasons, I embrace the challenge of running for a position on the Drummond Local School Council.

I remember when we were looking for a school for Isabella to attend. Marina and I were so intent on making sure that it would be a school where Isabella could thrive and delight in the joy of learning. We were also looking for a school that would be more than just a building where children go to learn but a school that would also provide a sense of community. We found that and more at Drummond Montessori Magnet School.

Given the current economic situation of our city and state, Drummond will undoubtedly be facing very difficult times. As a representative of the Drummond Local school council I vow to fight for the preservation of the ideals, qualities and standards of excellence in Montessori education that have brought us all together as a community here at Drummond. That is my promise to you.
